## OUR MISSION

We work on the mission of raising our standards high in terms of client service and quality products. Our unit is formed on three pillars and these are honesty, transparency and quality.

## OUR VISION

We have commenced our journey with a single vision to handle the medical equipment needs of the clients and later it was sliced up into numerous desires.

WE ARE TRUE TO  
OURSELVES, AND  
COMMIT TO ALWAYS  
PERFORM AT OUR BEST.

## ABOUT US

Aroha Healthcare is a name synonymous with quality and reliability when it comes to offering the latest and unmatched quality solutions for medical infrastructure. We are considered the one-stop destination for Medical Gas Pipeline System, Modular Operation Theatre, ICU, CCU, and various other healthcare solutions.

### OUR CORE VALUES

The core values on which we have laid the foundation of Aroha Healthcare include quality products and best customer service. We have a huge client base and that comes with a baggage of appeasing their needs of customized medical solutions.

### OUR SERVICES

We at Aroha Healthcare render a wide range of turnkey projects right from making the strategies to initiate the project to their completion. We are all in to provide you all kinds of medical equipment including their configuration and installation. We also ensure proper maintenance services after the delivery of the products. As far as the efficiency of our team is concerned, we never cut a sorry figure, no matter how much critical the clients' health related projects are. We work in consonance with the hospital and health care units and give them customized turnkey solutions.

## MORE THAN 15 YEARS EXPERIENCE

Flipping the pages of our past, 15 years back when we started from a small unit and tried our best to make the base stronger in a little span of time with our great commitment and never die attitude. We have been rendering the high end products and services to the clients with customized solutions. In our 17 years of struggle, we have seen all the colours of professional life and have now emerged as a competent unit. We keep ourselves abreast with the latest tools and technologies pertaining to medical equipment and render world class quality products to the clients across the globe.
